Re: SCP Carlstadt Site

Dear Mr. Warren:

This is to confirm the conversation which took place on May 17, 1988, between you, James Rooney, of EPA's Office of Regional Counsel, and myself at EPA's office in Federal Plaza, New York, New York.

At that time, EPA informed you, as representative of the SCP-Carlstadt Steering Committee, that your group will be responsible for the treatment and ultimate disposal of the container which exists on the SCP-Carlstadt site which is known as Tank T-5. We hereby request that your consultant assess options for treatment and/or proper disposal of Tank T-5 and its contents as part of the on-site Feasibility Study.

I will be happy to meet with representatives of Dames & Moore at their convenience to discuss the previous analyses and disposal options for this material.

If you have any questions regarding this matter, please feel free to call this office at your convenience.

Sincerely yours,

Janet C. Feldstein, Environmental Engineer
Site Compliance Branch
